EV & Hybrid Vehicle Diagnostics Made Easier

As hybrid and electric vehicles become the new standard, technicians face growing challenges: strict safety procedures, insulating gloves, and increasingly complex connectors.

The new HU31045 EV & Hybrid Test Lead Kit has been specifically designed to simplify EV & Hybrid testing (VAT & Insulation) while maintaining the highest levels of safety and reliability.

Patented, universal, and compatible with most EV connectors (including Interlock connections), the HU31045 enables technicians to safely perform voltage absence, continuity, and insulation tests using their existing diagnostic equipment, even while wearing insulating gloves.

Its innovative design also allows these tests to be carried out by a single technician, improving workshop efficiency.

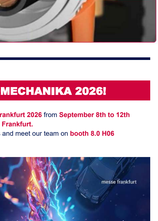

Connection cable kit specially designed for electric and hybrid vehicles.This kit stands out for its ability to adapt to the standardized copper contacts inside various connectors — regardless of their different external shapes.

Greatly facilitates measurements even when wearing gloves, thanks to its specially designed connectors!

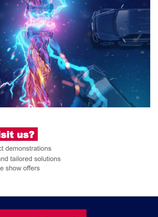

This kit is used to check:

- The absence of voltage in locked-out vehicles
- The continuity of connectors, cables, or harnesses
- The insulation of the vehicle's various components

Compatible with:

- Voltage Absence Tester (VAT)
- Multimeter
- Megohmmeter (Insulation Tester)

Standards and safety:

Safety: CAT III 1000 V / CAT IV 600V

- **(IP2X retractable caps) Standards: CE, UKCA**
- **Load limit: 12 A**
- **NF EN IEC 62196-2**
- **Connection: 4 mm banana plug**

JOIN US AT AUTOMECHANIKA 2026!

We will be exhibiting at Automechanika Frankfurt 2026 from September 8th to 12th at Messe Frankfurt.
Come to discover our latest products and meet our team on booth 8.0 H06

Why visit us?

- Live product demonstrations
- Expert advice and tailored solutions
- Exclusive show offers

Check out our new catalogue!

Contact us today to find out more about our products
Our team will be delighted to answer any questions you may have.
